## SYNOPSIS

The research programmes at CML aim to support the vision and mission of the university in providing academic programme at postgraduate level to produce postgraduates with advanced knowledge in language fields for their career advancement. The postgraduates will be able to conduct, manage and lead advanced research independently and collaboratively. The programme encourages the application of technology in the research work. The graduates should also be able to communicate effectively and act as responsible professionals with a global mind-set.

The programme offers courses and curriculum that focus more on the application of technology in the language fields. The programme also enhances the practical skills required by relevant industries in generating solutions to issues related to the application of technology in language fields.
